### 1. CGF Corporate Governance web-based Body of Knowledge

#### Abstract

The Corporate Governance *Body of Knowledge (BoK)* is your first port of call on issues relating to Corporate Governance, Risk and Compliance (GRC) related matters. The web-based *Body of Knowledge* content is compiled by a team of highly trained management consultants guided by the executive directors of CGF who, as principals, have considerable experience in GRC disciplines, spanning numerous industry sectors.

BoK allows clients to use and conduct on-line governance searches across the *Body of Knowledge*, Acronyms, Library, Adverts, Quotes, Governance Newsletters, Executive Summaries and much more. The system allows the user to enjoy the benefits of adapting PowerPoint governance reports for Board and executive meetings, strategy sessions, management reports, risk assessments, etcetera. Sharing the *Body of Knowledge* across all levels of the enterprise is made simple, thereby allowing more employees to take responsibility for GRC related matters.
